

COMMERCIAL

HEAVY DUTY SPEAKER MICROPHONE

MC050

Developed by Australian engineers with guidance & input from industry experts across the local region, the MC050 is a heavy-duty speaker microphone designed to suit the GME Commercial CP series of portable radios.

Providing reliable performance in tough commercial environments, the MC050 features a 2-Watt high-performance speaker that delivers exceptionally loud and clear audio.

To ensure long-term reliability and durability, the MC050 features a tactile push-to-talk button that's tested to 1,000,000 cycles, a heavy-duty curly cord with robust strain relief, and an ultra-durable belt clip that provides secure and reliable fastening.

The MC050 has IP67 ingress protection, making it dust-tight and water proof up to 1 metre for 30 minutes and is backed by GME's 12-month accessory warranty.
